BREVAN HOWARD

2026 Summer Internship Program – Artificial Intelligence & Quant, New York

The Firm

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. The firm currently manages over $34bn and engages predominantly in discretionary directional and relative value trading in fixed income, FX markets, and equities. BH Digital, a division within Brevan Howard that manages crypto and digital asset strategies was launched in 2022.

The firm currently employs over 1,000 personnel worldwide, including over 400 investment professionals. This global presence gives Brevan Howard the ability to identify and source attractive investment opportunities, as well as investment management talent wherever they may be. Brevan Howard has won several industry awards for excellence in risk management, operational robustness, and investment performance.

The firm's main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, Abu Dhabi and Bengaluru.

Overview & Responsibilities

Our 10-week Summer Internship Program seeks to hire ambitious, enthusiastic candidates with strong mathematical and quantitative backgrounds, coding skills, a demonstrable passion for markets, and an interest in working across all facets of quantitative analysis. Interns will work with our Quant teams building front-office tools, analyzing data, contributing to the core analytics library, and integrating AI into analytical systems.

Our Internship Program starts with one-week in-depth training to prepare interns for the desk. This covers a range of topics relating to Financial Markets including Macroeconomics, FX, Digital Assets, Interest Rate Derivatives, Equity Rates, Bonds, Credit and Fixed Income, Trading Strategies, Risk Management, Excel and Python.

Additionally, interns will benefit from key talks, a mentor program, social events and interactions with some of the most respected and talented individuals in their field.

During the program, working in a fast-paced environment, interns will work with Quants and PMs to contribute to the central analysis platform. Projects can include developing the core analytics library (Fixed Income, FX, Credit, Equity etc), integrating AI into trading tools, and working with PMs to develop trading strategies, signals and back testing.

This internship is devised to provide candidates with an invaluable education on the workings of a macro hedge fund from a quantitative and technological perspective, and to determine if Brevan Howard and the intern are a compatible fit.

The goal of our summer internship program is to convert top performing interns to our 2027 Graduate Program.

Qualifications & Requirements

- A penultimate year undergraduate / junior or 1st year master's student at a leading university and on course for a minimum of a 2:1 / 3.6 GPA – completed and awarded before July 2027
- Bachelor's or master's degree in Mathematics, Physics, Computer Science, Quantitative or STEM related field
- Strong mathematic, quantitative and problem-solving capabilities
- Programming experience in Python and strong general technical skills
- A demonstrated interest in AI and the ability to explain fundamental concepts
- A demonstrated interest and passion for financial markets
- Ability to work independently and collaboratively as part of a team
- Entrepreneurial spirit
- Strong communication and interpersonal skills
- Can prioritize, manage and deliver on multiple projects to investment teams accordingly
- Outstanding organizational skills and strong attention to detail
- Exemplary professionalism with internal and external clients
- Exceptional written and verbal communication skills in English

Compensation for NY based applicants is a base salary in the range of $10,000 and $12,500 monthly. This role may also be eligible for a sign on bonus, housing stipend and benefits

BREVAN HOWARD

2026 Summer Internship Programme – Credit Trading, London

The Firm

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. The firm currently manages over $34bn and engages predominantly in discretionary directional and relative value trading in fixed income, FX markets, and equities. BH Digital, a division within Brevan Howard that manages crypto and digital asset strategies was launched in 2022.

The firm currently employs over 1,000 personnel worldwide, including over 400 investment professionals. This global presence gives Brevan Howard the ability to identify and source attractive investment opportunities, as well as investment management talent wherever they may be. Brevan Howard has won several industry awards for excellence in risk management, operational robustness, and investment performance.

The firm's main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, Abu Dhabi and Bengaluru.

Overview & Responsibilities

Our ten-week summer Internship Programme seeks to hire ambitious, enthusiastic candidates who have strong mathematical backgrounds and coding skills, with demonstrated passion for credit markets.

Our Internship Programme starts with one-week in-depth training to prepare interns for the desk. This covers a range of topics relating to Financial Markets including Macroeconomics, FX, Digital Assets, Interest Rate Derivatives, Equity Rates, Bonds, Credit and Fixed Income, Trading Strategies, Risk Management, Excel and Python.

Additionally, interns will benefit from key talks, a mentor programme, social events and interactions with some of the most respected and talented individuals in their field.

During the programme, working in a fast-paced environment, interns will contribute to their Portfolio Management teams. Within the corporate credit market, interns will work on fundamental as well as relative value trading strategies. This will include building models to evaluate companies as potential investments, tracking historical trading correlations, and using macro themes to create over and underweights across different sectors.

This internship is devised to provide candidates with an invaluable education on the workings of a macro hedge fund and the regulatory environment through a two-way process to determine if Brevan Howard and the intern are a compatible fit.

The goal of our summer internship programme is to convert top performing interns to our Graduate Programmes.

BREVAN HOWARD

2026 Summer Internship Programme – Emerging Markets Trading, Abu Dhabi

The Firm

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. The firm currently manages over $34bn and engages predominantly in discretionary directional and relative value trading in fixed income, FX markets, and equities. BH Digital, a division within Brevan Howard that manages crypto and digital asset strategies was launched in 2022.

The firm currently employs over 1,000 personnel worldwide, including over 400 investment professionals. This global presence gives Brevan Howard the ability to identify and source attractive investment opportunities, as well as investment management talent wherever they may be. Brevan Howard has won several industry awards for excellence in risk management, operational robustness, and investment performance.

The firm's main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, Abu Dhabi and Bengaluru.

Overview & Responsibilities

Our ten-week Emerging Markets Summer Internship Programme is designed for ambitious, intellectually curious students who want to gain hands-on exposure to the dynamic world of EM trading. Interns will work closely with our Emerging Markets Trading teams, learning how bottom-up macroeconomic analysis informs investment decisions and how traders take long and short positions in FX, rates, and credit across emerging and frontier markets.

The programme begins with a week of intensive training, covering core topics such as global macroeconomics, emerging market fundamentals, FX and rates, sovereign credit, and trading strategy design. Interns will also receive practical training in Python, Excel, and risk management techniques.

During the internship, participants will contribute to real projects such as:

- Supporting bottom-up country macroeconomic analysis.
- Developing trade ideas based on fiscal, external, and monetary dynamics.
- Building models to backtest EM trading strategies.

- Researching FX, rates, and credit markets in frontier economies.

The programme also includes access to senior talks, a mentor scheme, networking events, and social activities. This is a two-way process: interns will gain a unique perspective on the workings of a macro hedge fund while we assess their potential for conversion to our 2027 Graduate Programme.

Qualifications & Requirements

- Penultimate-year undergraduate or master's student at a recognised university, on track for a minimum 2:1 / 3.6 GPA, graduating before July 2027.
- Degree in Mathematics, Economics, Statistics, Engineering, Computer Science, Financial Engineering, or another STEM-related field.
- Strong quantitative and problem-solving skills.
- Programming experience in Python, with solid technical ability in Excel and VBA.
- A demonstrated passion for financial markets, with specific interest in emerging markets.
- Intellectual curiosity, ability to form independent views, and motivation to dig deep into macroeconomic details.
- Strong teamwork, communication, and interpersonal skills.
- Entrepreneurial mindset and adaptability to fast-paced environments.
- Outstanding organisational skills and attention to detail.
- Exceptional written and verbal communication in English.
- Additional assets: Proficiency in another language relevant to emerging markets (e.g., Chinese, Arabic, Turkish, Spanish, Portuguese, Russian, etc.).

BREVAN HOWARD

2026 Summer Internship Program – Systematic Execution Strategy, New York

The Firm

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. The firm currently manages over $34bn and engages predominantly in discretionary directional and relative value trading in fixed income, FX markets, and equities. BH Digital, a division within Brevan Howard that manages crypto and digital asset strategies was launched in 2022.

The firm currently employs over 1,000 personnel worldwide, including over 400 investment professionals. This global presence gives Brevan Howard the ability to identify and source attractive investment opportunities, as well as investment management talent wherever they may be. Brevan Howard has won several industry awards for excellence in risk management, operational robustness, and investment performance.

The firm's main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, Abu Dhabi and Bengaluru.

Overview & Responsibilities

Our 10-week summer Internship Program seeks to hire ambitious, enthusiastic candidates who have strong mathematical, quantitative backgrounds and coding skills, with demonstrated passion for markets and an interest to work on execution research.

The Execution Research team is part of the Brevan Howard Systematic business. We employ quantitative methods to trade Equities, Futures, FX, Rates and other asset classes.

During the program, working in a fast-paced environment, interns will contribute to the team that is responsible for designing, implementing & continuously evolving Execution Research. Responsibilities of the Execution Research team include evaluating the performance of our trading, improving trading algorithms, and developing methods to compare various execution strategies. Main duties of the internship may include assisting the team in applying advanced statistical techniques on large datasets and building execution performance framework and reports.

Our Internship Program starts with one-week in-depth training to prepare interns for the desk. This covers a range of topics relating to Financial Markets including Macroeconomics, FX, Digital Assets, Interest Rate Derivatives, Equity Rates, Bonds, Credit and Fixed Income, Trading Strategies, Risk Management, Excel and Python.

Additionally, interns will benefit from key talks, a mentor program, social events and interactions with some of the most respected and talented individuals in their field.

This internship is devised to provide candidates with an invaluable education on the workings of a macro hedge fund and the regulatory environment through a two-way process to determine if Brevan Howard and the intern are a compatible fit.

The goal of our summer internship program is to convert top performing interns to our 2027 Graduate Program.

Qualifications & Requirements

- A penultimate year undergraduate / junior or 1st year Master's student at a recognized University and on course for a minimum of a 2:1 / 3.6 GPA – completed and awarded before July 2027
- Bachelor's or Master's in Statistics, Data Science, Mathematics, Computer Science, or Engineering
- Programming experience in Python. Experience in Linux, SQL, and KDB/Q is a plus
- Strong mathematic, quantitative and problem-solving capabilities
- A demonstrated interest and passion for financial markets, trading, and financial products
- Can work independently and collaboratively as part of a team
- Entrepreneurial spirit
- Strong communication, professionalism and interpersonal skills
- Can prioritize, manage and deliver on multiple projects to investment teams accordingly
- Outstanding organizational skills and strong attention to detail
- Exceptional written and verbal communication skills in English

Compensation for NY based applicants is a base salary in the range of $10,000 and $13,300 monthly. This role may also be eligible for a sign on bonus, housing stipend and benefits.

BREVAN HOWARD

2026 Summer Internship – Systematic Trading Technology, New York

The Firm

Brevan Howard Asset Management is one of the leading absolute return/hedge fund managers, overseeing assets on behalf of institutional investors from around the world, including pension funds, endowments, insurance companies, government agencies, private banks, and fund of funds.

Brevan Howard was founded in 2002 and launched its flagship global macro strategy in April 2003. This global presence gives Brevan Howard the ability to identify and source attractive investment opportunities, as well as investment management talent wherever they may be. Brevan Howard has won several industry awards for excellence in risk management, operational robustness, and investment performance.

The firm’s main hubs are in London, Jersey, Geneva, New York, Austin, Hong Kong, Singapore, Abu Dhabi and Bengaluru.

Overview & Responsibilities

Our 10-week summer Internship Programme seeks to hire ambitious, enthusiastic candidates who have a strong background in engineering, science, computer science, or other quantitative fields, with demonstrated passion for investing and an interest in working on all facets of Venture Capital and deep-tech startups.

Our Internship Programme starts with a one-week in-depth training programme to prepare interns for the desk. This covers key topics in financial markets and programming. The Venture Capital interns will participate in this programme as well as receive on-the-job training in Venture Capital.

Additionally, interns will benefit from key talks, a mentor programme, social events, and interactions with some of the most respected and talented individuals in their field.

During the programme, working in a fast-paced environment, interns will contribute to the Venture Capital team on various projects that can include researching cutting-edge technologies (e.g., fusion, quantum computing, AI, and space), due diligence on startups, mapping industry segments, financial analysis on deals, and identifying investment prospects.

This internship is designed to provide candidates with hands-on exposure to a top-tier venture capital group within a macro hedge fund and is structured as a two-way process to assess mutual fit between Brevan Howard and the intern.

The goal of our summer internship programme is to convert top-performing interns to our 2027 Graduate Programme.

Qualifications & Requirements

- A penultimate-year undergraduate or first-year master's student, on track to complete studies before July 2027, with a strong academic record (minimum 2:1 / 3.8 GPA or equivalent).
- Bachelor's or master's in Engineering, Computer Science, Physics, Finance, Economics, or another STEM or technical discipline.
- Demonstrated interest in technology and startups, with a curious, analytical mindset and ability to imagine the future.
- Strong research and data analysis capabilities, with a proactive and problem-solving approach.
- Prior experience—whether through internships, academic research, startups, or financial institutions (e.g. venture capital, investment banking, hedge funds, or tech companies).
- Proficiency in Excel and strong written and verbal communication skills in English.
- Ability to work both independently and as part of a team in a fast-paced, high-performance environment.
- Strong organizational skills, professionalism, and attention to detail.

Compensation for NY based applicants is a base salary in the range of $12,500 and $16,600 monthly. This role may also be eligible for a sign on bonus, housing stipend and benefits
